Workshop for students
CYBER RESILIENCE:
WORKSHOP ON STATIC PENETRATION TESTING AND DIGITAL FORENSICS

In collaboration with:

Agorà Security

mobisec
WINNERS PLAY IT RIGHT.

FEBRUARY 15, 2024
2:30 PM - 4:30 PM

Lab TA
Torre Archimede

Join us in this workshop to explore techniques in mobile security! We'll be focusing on **Static Penetration Testing** and **Digital Forensics for compromised devices**.

The workshop will cover **digital forensics techniques** on compromised devices using cloud-based tools, and will be led by Matteo Brunati, CEO of **Agorà Security**.

You'll explore **mobile security** with Riccardo Poffo, **Mobisec**'s CTO and Penetration Testing Team Leader. The training will provide you with a to identify vulnerabilities and effectively intervene to secure mobile applications.

PROGRAM:

○ **Mobisec** and **Agorà Security** presentation

○ Introduction to the 1st workshop

○ 1st workshop activity – **Static Mobile Penetration Test**

○ Introduction to the 2nd workshop

○ 2nd workshop activity – **Digital Forensic Analysis on compromised devices**

○ Final Q&A
