

Internships in Eaton at the Centre for Intelligent Power, Dublin

The Centre for Intelligent Power (CIP) is seeking interns to work within its multidisciplinary teams. We are looking for people excited and inspired by the thought of contributing to a more sustainable global future, as well as bringing digitalization solutions and mindset to Eaton's vast portfolio of products and services across multiple industries that our company operates.

Available roles

Roles are available for several teams in CIP, including:

- Data science and artificial intelligence
- Data engineering and cloud platforms
- Embedded and edge software development
- User experience
- Software quality assurance
- Project and operations management

Duration

Duration of the internship depends on the team and the candidate availability, however they are generally 6 to 9 months long. Starting dates are flexible, between January and August 2025.

Location

The internships will take place in Dublin, Ireland. Candidates need to have the right to work in Ireland (EU citizens automatically satisfy this requirement).

How to apply

To apply, email your CV with a cover letter to danielzucchetto@eaton.com. Selections will start in September.

If you would like more information about a specific role, feel free to send an email to the above email address.

ABOUT EATON

We make what matters work. Everywhere you look—from the technology and machinery that surrounds us, to the critical services and infrastructure that we depend on every day—you'll find one thing in common. It all relies on power. That's why Eaton is dedicated to improving people's lives and the environment with power management technologies that are more reliable, efficient, safe, and sustainable. Because this is what matters. We are confident we can deliver on this promise because of the attributes that our employees embody. We're ethical, passionate, accountable, efficient, transparent and we're committed to learning. These values enable us to tackle some of the toughest challenges on the planet, never losing sight of what matters.

Eaton is a global power management company and has been tackling some of the world's most urgent energy challenges from right here in the heart of Dublin.

As a multi-billion-dollar business with almost 100,000 employees and customers in more than 175 countries, Eaton doesn't set its sights low - it wants nothing less than to improve the quality of life and the environment for everyone.

To accomplish this lofty goal, Eaton's global headquarters in Dublin hosts the CIP – Centre for Intelligent Power.

This fast-growing team is dedicated to solving the toughest energy challenges on the planet, developing efficient solutions for the digital world to harness electrical, hydraulic, and mechanical power more safely and sustainably.
