# **STRUCTURAL BIOINFORMATICS**

**CURRICULUM  
BIOLOGICAL DATA ANALYTICS**

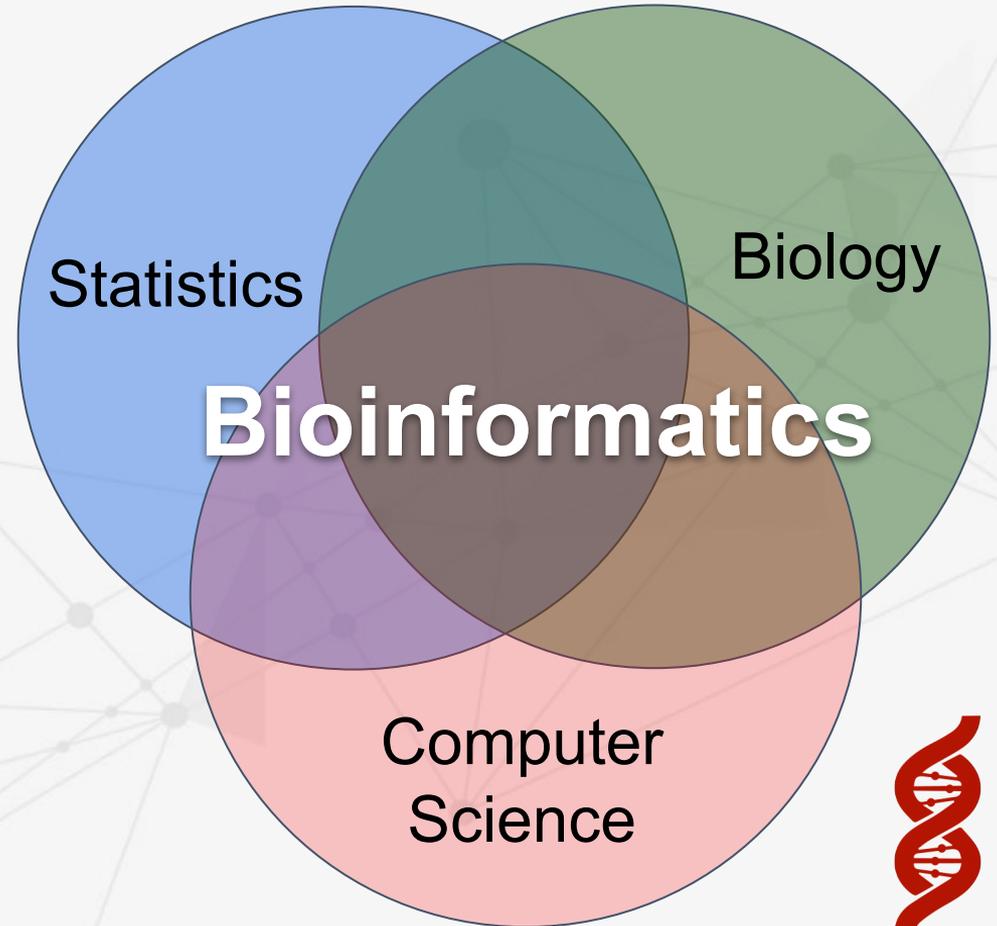

Master of Science in Data Science

**Damiano Piovesan**

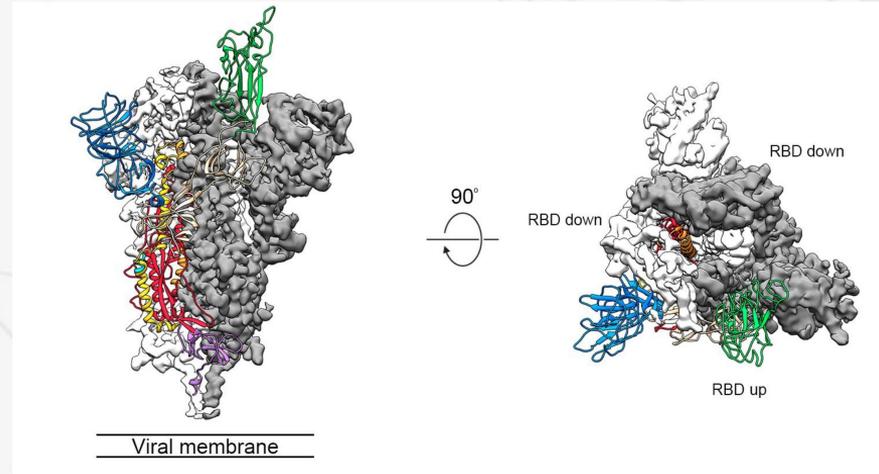

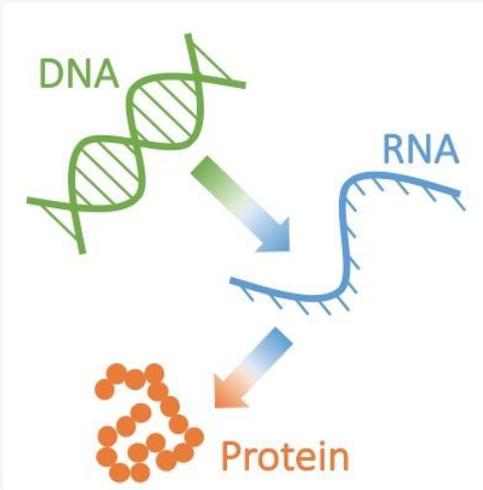

# Bioinformatics

- Biological information can be studied with approaches typical of information theory
- Understanding biology requires statistical analyses
- Computer science as a tool for biological data management

## An example... **Coronavirus**

### The Central Dogma of life

Cryo-EM structure of the 2019-nCoV spike in the prefusion conformation.

*Wrapp D et al. Science. 26 Feb 2020*

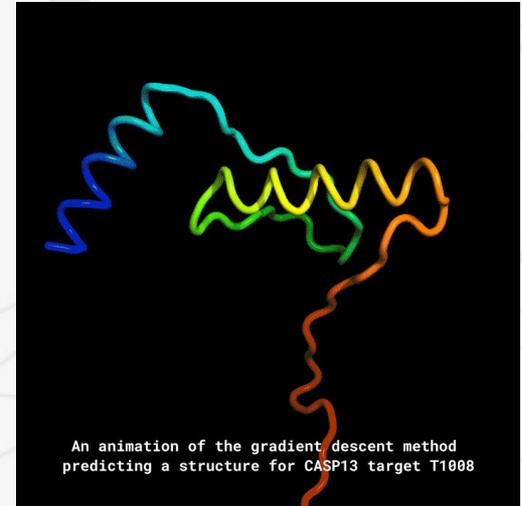

# The protein folding problem

An example, the protein folding problem:

- **Molecular Dynamics** simulations take **years** of calculation (on single CPU)
- **Deep learning** algorithms take **hours / minutes**

**AlphaFold**  
Google DeepMind lab

# Course information

# Prof. Damiano Piovesan

- **Office hours:** Tuesday 15:00-16:00
- **Office:** Vallisneri building, ground floor (near the library)
- **Email:** [damiano.piovesan@unipd.it](mailto:damiano.piovesan@unipd.it)
- **LinkedIn:** @DamianoPiovesan
- **Moodle:** STRUCTURAL BIOINFORMATICS 2025-2026 - **SCP7079278**
  - <https://stem.elearning.unipd.it/course/view.php?id=15125>
  - Enrollment key: **SB2026**

# Learning Objectives

## Knowledge & Understanding

- Understand the fundamentals of protein structure (amino acids, chemical bonds, folding)
- Learn the principles of structural data acquisition (crystallography, databases)
- Grasp concepts of protein evolution, disorder, and aggregation
- Understand modern structure prediction methods (comparative modeling, ab initio, AlphaFold2)

## Technical Skills

- Master PyMOL for molecular visualization and scripting
- Develop proficiency in BioPython for structural analysis
- Apply statistical potentials and embeddings to structural problems
- Understand basics of molecular dynamics simulations

# Learning Objectives

## Analytical Competencies

- Analyze and compare protein structures computationally
- Predict and evaluate protein disorder
- Work with structural databases and tools (RING mentioned)
- Develop a final project applying learned techniques

## Computational Focus

- Strong emphasis on programming and scripting for structural analysis
- Integration of classical bioinformatics with modern AI/ML approaches (embeddings, AlphaFold2)

# Prospective student's background

We welcome students with a **good background** in

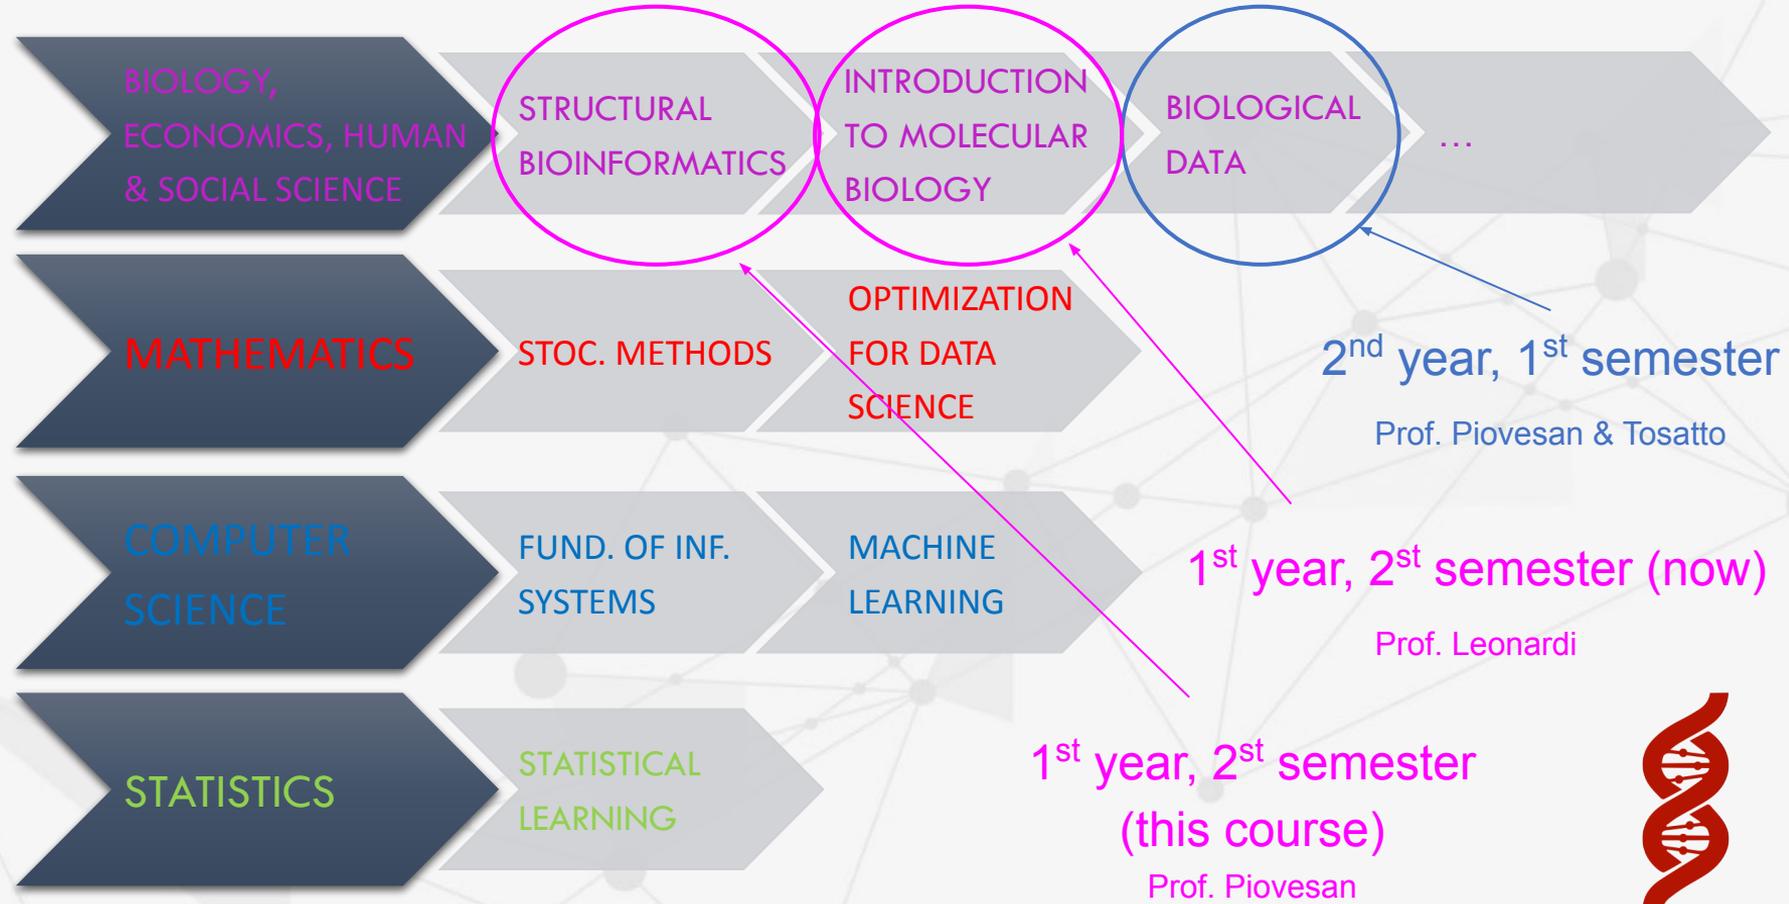

- Computer science, Computer Engineering, ICT
- Mathematics, Statistics, Physics
- Biology, Medicine and related (with math/statistics fundamentals)

Prospective students should

- Have an attitude on both basic science (biology, biochemistry, physics) and computer science (basic programming)

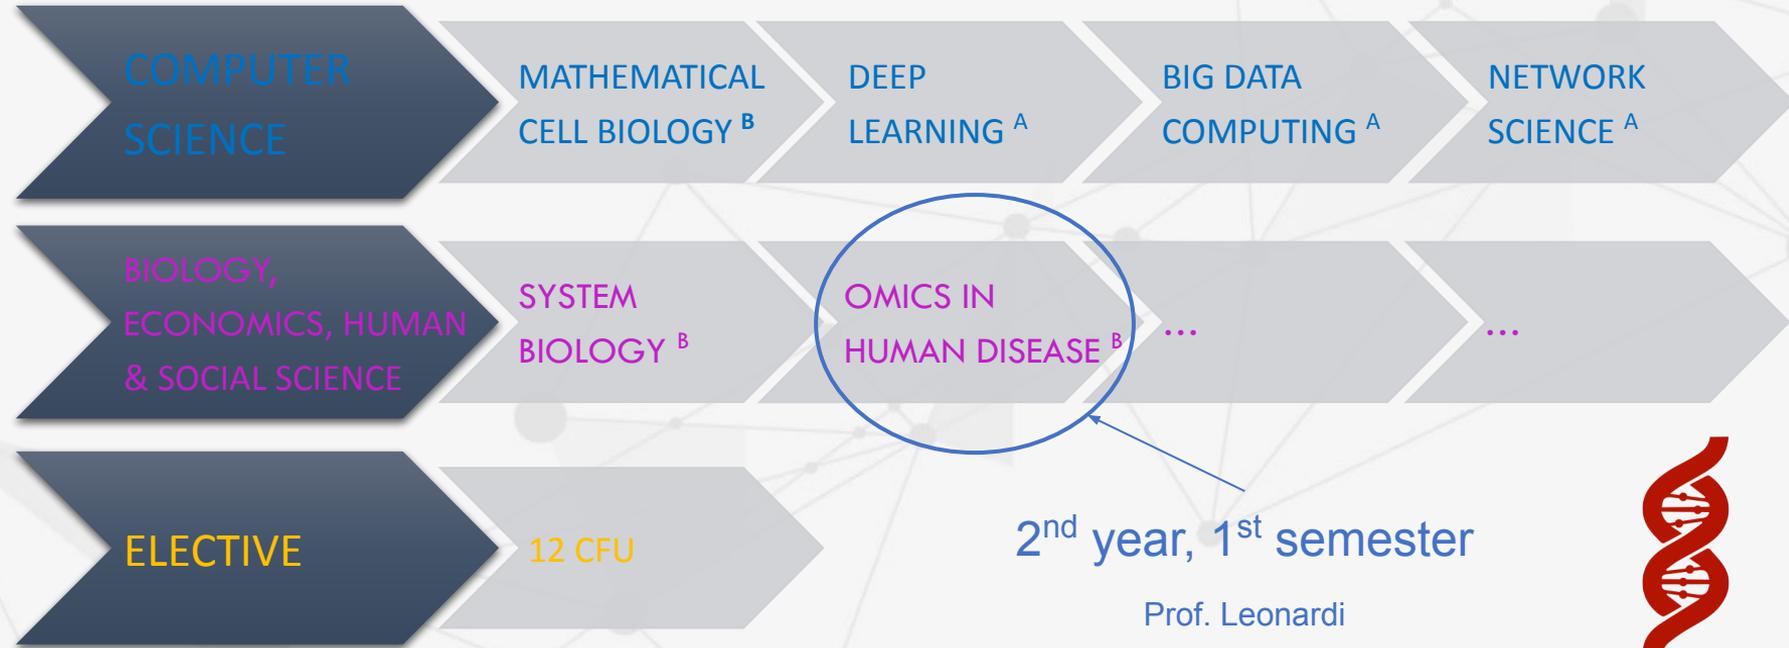

# BDA curriculum (for DS students)

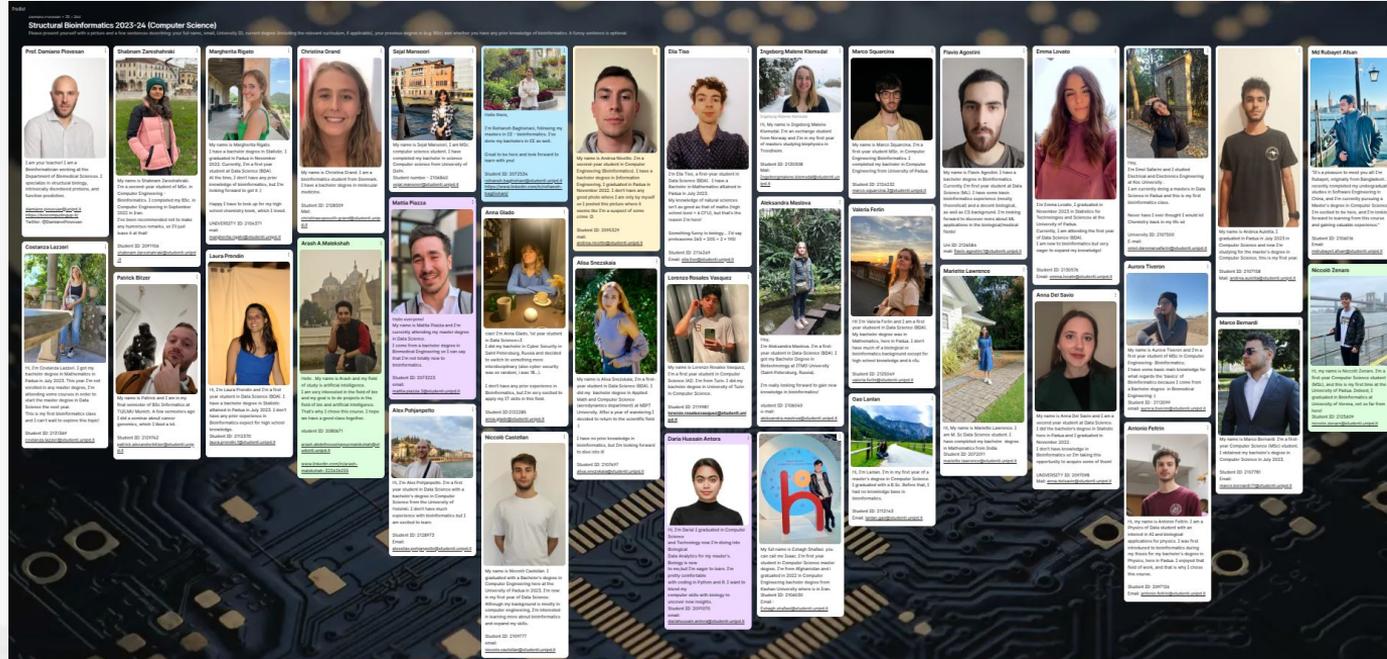

# BDA curriculum (for DS students)

- Two **optional** + two **electives** courses
- Optional: **two** from **group A** and **one** from **group B**

# Padlet

**Structural Bioinformatics 2025-24 (Computer Science)**

**And Damiano Passera**  
I am your brother's son, a brother of Alessandro's in the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [and.damiano@unipd.it](mailto:and.damiano@unipd.it)

**Damiano Casaroli**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [damiano.casaroli@unipd.it](mailto:damiano.casaroli@unipd.it)

**Margherita Rigoli**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [margherita.rigoli@unipd.it](mailto:margherita.rigoli@unipd.it)

**Christiana Grand**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [christiana.grand@unipd.it](mailto:christiana.grand@unipd.it)

**Saja Mansouri**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [saja.mansouri@unipd.it](mailto:saja.mansouri@unipd.it)

**Dina Tizi**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [dina.tizi@unipd.it](mailto:dina.tizi@unipd.it)

**Dragana Matovic Miroslav**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [dragana.matovic@unipd.it](mailto:dragana.matovic@unipd.it)

**Alessia Squarone**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [alessia.squarone@unipd.it](mailto:alessia.squarone@unipd.it)

**Paolo Agostini**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [paolo.agostini@unipd.it](mailto:paolo.agostini@unipd.it)

**Emma Lovato**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [emma.lovato@unipd.it](mailto:emma.lovato@unipd.it)

**Mirko Robert Alban**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [mirko.alban@unipd.it](mailto:mirko.alban@unipd.it)

**Corinna Laceri**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [corinna.laceri@unipd.it](mailto:corinna.laceri@unipd.it)

**Patrick Brusa**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [patrick.brusa@unipd.it](mailto:patrick.brusa@unipd.it)

**Laura Pirodda**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [laura.pirodda@unipd.it](mailto:laura.pirodda@unipd.it)

**Ayash A. Moushah**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [ayash.moushah@unipd.it](mailto:ayash.moushah@unipd.it)

**Maria Pizzi**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [maria.pizzi@unipd.it](mailto:maria.pizzi@unipd.it)

**Anna Diak**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [anna.diak@unipd.it](mailto:anna.diak@unipd.it)

**Alina Drobniak**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [alina.drobniak@unipd.it](mailto:alina.drobniak@unipd.it)

**Lorenzo Rinaldi Vespaia**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [lorenzo.rinaldi@unipd.it](mailto:lorenzo.rinaldi@unipd.it)

**Martina Lawrence**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [martina.lawrence@unipd.it](mailto:martina.lawrence@unipd.it)

**Nicola Zanoni**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [nicola.zanoni@unipd.it](mailto:nicola.zanoni@unipd.it)

**Alessia Troiani**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [alessia.troiani@unipd.it](mailto:alessia.troiani@unipd.it)

**Alessia Del Sarto**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [alessia.delsarto@unipd.it](mailto:alessia.delsarto@unipd.it)

**Alessia Pizzini**  
I am a student of the Department of Biomathematics, a specialist in structural biology, molecular evolution, protein, and bioinformatics.  
Student ID: 2126166  
Email: [alessia.pizzini@unipd.it](mailto:alessia.pizzini@unipd.it)

# Evaluation criteria

## Practicals (2 x 15 points; 20% of total)

- Work assignments during practical sessions, to be returned via email
- Tentatively end-March and end-April
- Mandatory to access the final exam

## Group project (60 points; 40% of total)

- Code, data and written report to hand in (at least) ten days before exam
- Each group will have a different project
- Groups of 2-3 students

## Final oral examination (60 points; 40% of total)

- Discussion of the project and written report
- Questions from the course material

## Optional bonuses

- Interesting contribution to lecture

Scores are converted to thirty points maximum.  
Threshold for 18 will be ca. 50% of the maximum score, in each part

# Success stories

Research Article

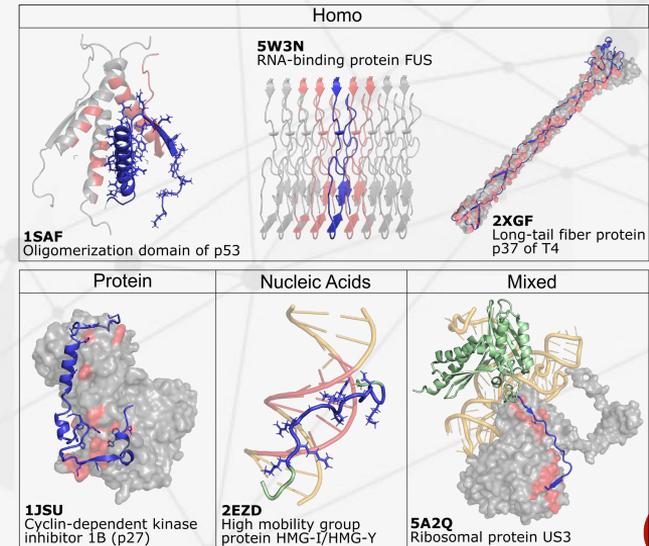

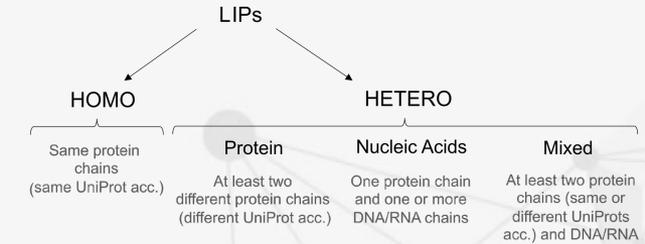

# FLIPPER: predicting and characterizing linear interacting peptides in the Protein Data Bank

Alexander Miguel Monzon, **Paolo Bonato**, Marco Necci, Silvio C.E. Tosatto, Damiano Piovesan

Dept. of Biomedical Sciences, University of Padua, Via Ugo Bassi 58/B, Padua, 35121, Italy

Received 3 December 2020, Revised 22 February 2021, Accepted 22 February 2021, Available online 27 February 2021.

CS student 2018/19
