Brief presentation of the organization:

P&G is a leading consumer goods company whose winning brands are built around the model of innovation. P&G was founded over 180 years ago as a simple soap and candle company. Today, we're the world's largest consumer goods company and home to iconic, trusted brands that make life a little bit easier in small but meaningful ways.

We've spanned three centuries thanks to three simple ideas: leadership, innovation and citizenship. The insight, innovation and passion of talented teams has helped us grow into a global company that is governed responsibly and ethically, that is open and transparent, and that supports good causes and protects the environment. This is a place where you can be proud to work and do something that matters.

Job proposal addressed to graduates in:

Master's Degree in Engineering

Activities offered to the candidate:

We offer an entry to an exciting professional career in Manufacturing in the best global consumer goods company.

Working in P&G Manufacturing, you will have an opportunity to redefine the supply chain, eliminate challenges while building self-sufficient teams and deliver a continuous stream of new product initiatives. You will become at the center of building some of the world's best brands.

Our objective is being a business-integrated partner at the heart of helping some of the world's greatest professional talent – including yourself. You will be involved in working on truly meaningful business tasks, receiving mentorship from top management and training from professionals!

As a Manufacturing Intern you will be responsible for a certain project in the area of optimization of manufacturing processes, loss elimination, quality control or development of engineering systems, which includes active improvement of the process (breakdown reduction, material flow optimization, energy or material savings).

During the internship you will work on real projects and develop real business solutions. You are going to be surrounded by multifunctional team and experienced P&G managers to guide you and equip to success.

Part of the internship objective may be developed as degree thesis for the candidate.

Contract Type:

6 months internship at P&G Gattatico production plant

- Challenging work and responsibility from the Day 1
- Accommodation for the non residents
- Monthly payment
- Lunch offered every day at the plant canteen
