STAGE ICT APPLICATION DEMAND BUSINESS

We are looking for an Application demand business Intern for Finance Area. The resource will be inserted, for 6 months, within the ICT Department.

She/He will participate to an important transformation program in the context of "digital transformation enterprise":

Key activities

1. Act as an ICT business partner for Finance area, interfacing with internal customers to understand requirements and transforming them in ICT solutions.
2. Support Process Owners in maintaining/customizing the business blueprint and performing functional analysis.
3. Define test scenarios with the key users and support them during tests. Perform or coordinate user training in collaboration with third parties when needed.
4. Understanding and mapping actual systems/flow in the financial area;

Desired Skills & Experience:

1. Ongoing students (preferably with a previous Bachelor's Degree) in Management Engineering, or Economics;
2. Passionate about ICT;
3. Excellent Knowledge of MS Office, especially Excel;
4. Fluency in written and spoken English;
5. Analytical skills with capability to go in deep into problems, analyze and present data;
6. Ability to work effectively in a fast-paced and changing environment with multiple priorities and drive results;
7. Team working attitude.
